INVASIVE BLOOD PRESSURE MONITORING SYSTEMS

Monitoring of arterial blood pressure is a mainstay of hemodynamic monitoring in acutely or critically ill patients. Sky Medical offers full product portfolio for invasive blood pressure monitoring addressing any invasive blood pressure monitoring procedure in ICU, OR and during interventional cardiology.

MED
FLOW

Color coded tubing

Color coded stopcock

Ergonomic easy-to-use cable connection

- Integrated pressure transducer with an easy to use flush device and 3-way color coded stopcock
- Transparent transducers housing for good visualization
- Flush device continuous flush rate of 3ml/h or 30ml/h at 300mmHg provides simple and safe priming

SET FEATURES & BENEFITS

Our sets provide continuous and accurate measurement of physiological pressure and determination of other hemodynamic parameters. Our pressure transducers are fully integrated with flush device and 3-way stopcock, our sets vary from single to triple channel transducers, color coded tubing, color coded stopcocks, needle-free access for blood sampling and closed systems with blood reservoir. Customized sets according to the clinical procedure and the hospital demands are available.

Integral reservoir for blood aspiration

Color coded stopcock

Ergonomic mounting on the transducer plate

Self-flushing needle free sampling port

Closed blood sampling sets

Closed blood sampling sets combine safe and efficient blood sampling with integrated aspiration syringe and needle-free sampling port

Precise and safe real-time blood pressure measurement to manage critically ill patients - in one device.

ORDERING INFORMATION

BP-S00003
Single transducer set

BP-S00028
Single transducer set with
self-flushable needle free valve

BP-S00031
Single transducer closed
blood sampling set

BP-T00001
Triple transducer set

BP-D00001
Double transducer set

BP-S00032
Disposable pressure
transducer

DO-D0002
2 plates transducer
organizer

DO-T0003
3 plates transducer
organizer

We are offering specific configurations for specific customers to create the most efficient and safe procedure.

DO-H0000
Pole hanger for
transducer plate
